

STATE OF COLORADO)
County of Douglas)ss.

COMES NOW, Affiant Joseph T. Oltmann, being first duly sworn, under oath, and states under penalty of perjury that the following information is true and accurate within his personal knowledge and belief:

My name Joseph Oltmann. I am over eighteen years of age. I am not suffering under any mental disability and am competent to give this sworn affidavit. I am able to read and write and to give this affidavit voluntarily and on my own free will and accord. No one has used any threats, force, pressure, or intimidation to make me sign this affidavit. I make this affidavit in support of the truth.

I am the CEO of a tech company based just outside of Denver, Colorado. I am also the founder of an organization called FEC United. [[Fecunited.com](https://fecunited.com)] The goal of this organization is to restore constitutional integrity to our community and empower those in our community to stand up to state and national leadership that intends to suppress the rights of individuals holistically.

Through this organization "FEC" I became a target of journalists who began to slander both me and my organization. I became the topic of Antifa and extremists through my involvement in a movement to resist the narrative that police are bad and our society represented the rhetoric shared by these extremists. As a result of these attacks, I started researching Antifa, BLM, Inc. and their connection to violence and unrest inside of our communities. As a result, I set out to infiltrate Antifa meetings and de-mask those Antifa members who are journalists in the mainstream media in Colorado specifically.

On or about the week of September 27, 2020, I was able to attend an Antifa meeting which appeared to be between Antifa members in Colorado Springs and in Denver Colorado. I cannot verify the connection between the two or the leadership as they were disorganized. Discussions of Our Revolution and Antifa were discussed. Rhetoric of "eliminating fascists" and frustration as to the dwindling of support to rally in the street was evident.

Then I honed in among other conversations key actors in the organization who work for local and state news publications. One such person of interest was Heidi Beedle, identified leader of Our Revolution in El Paso County (Southern Colorado) and Antifa leader of the same area.

Heidi's name is actually Sean Beedle. She is a journalist at Colorado Springs Independent, Colorado Springs Business Journal and a freelance writer for several online publications. Others to remain unnamed in this were present.

The conversation went like this:

Someone identified as "Eric" began to speak. Someone asked who Eric was, and someone else replied "he is the Dominion guy" [paraphrased].

Eric then began to speak after being told to continue, but was interrupted and asked by someone, "What are we going to do if Trump wins this fucking election?"

Eric responded, "Don't worry about the election. Trump is not going to win. I made fucking sure of that.. Hahaha"

Someone responded, "Fucking right."

Eric continued with fortifying the groups and recruiting. I would describe his tone as eccentric and boisterous. I wrote down his name and started to do some research into him.

At the time, I thought that they were so disconnected with reality that they think they can "make sure Trump is not elected."

I started with a simple google search: Keywords: "Eric," "Dominion," "Denver Colorado." The fifth result in organic search returned:

Above that were results for Eric Schussler- Old Dominion University and Eric E Johnson, Attorney - Sherman & Howard. The first two on organic search however was as follows:

I began doing research on Eric Coomer and discovered that Colorado Secretary of state link the following about Dr. Eric Coomer on page 26:

“Eric Coomer graduated from the University of California, Berkeley in 1997 with a Ph.D. in Nuclear Physics. After working in IT consulting for several years, Eric entered the elections industry in 2005 with Sequoia Voting Systems as Chief Software Architect. After three years with the company, Eric took over all development operations as Vice President of Engineering. When Sequoia was acquired by Dominion Voting Systems in 2010, Eric joined the DVS team as Vice President of US Engineering overseeing development in the Denver, Colorado office.

Recently, Eric has taken over as the Director of Product Strategy driving the creation of next generation products through close collaboration with customers, combined with a deep understanding of technology and the needs of Elections departments throughout the United States and abroad. Eric has been an active participant in the development of the IEEE common data format for Elections systems, as well as the working group for developing standards for Risk-Limiting Audits for elections results. When not designing new products, Eric supports large and small scale customers during Election season.”

I did some cursory research on Eric, but my conclusion was that he was either a part of the government or not relevant to the conversation. In other words, this was not a target I would

identify as being influential in Antifa. My conclusion was based on his credentials of having a PhD in Nuclear Physics. Did not add up for someone with that intelligence. I set it aside and concentrated my focus on the activist journalist who were actually Antifa members.

On October 15, 2020 I spoke at an FEC meeting in Bandimere Speedway. It was a rally around the unconstitutional actions of Jefferson County, Colorado government leadership to hurt Bandimere Speedway. I spoke and before the event started they escorted a suspected Antifa Journalist Erik Maulbetsch [Colorado Recorder] off the premises. In that meeting I talked about outing activist journalists who were Antifa and holding them accountable in our community for attacking organizations like FEC United that serve the community.

These activist journalists frequently slander people of faith, conservatives and call them names that defame them in the community. I had enough and warned that we would call them out by name. Maulbetsch wrote an article reflecting this as he was listening in online and decided to omit details about the meeting, causing the entire journalistic community to wonder if they were on the list. It had a positive effect contrary to their intentions.

On Friday November 6th, I received a forwarded article about Georgia irregularities on the election day. I normally do not read many of these articles because I am inundated with information both from FEC, and my company. I started reading it and noticed Eric Coomer was the spokesperson for a company called Dominion Voting Systems. I immediately stopped and started to go back through my notes to find the info on Eric Coomer. I then started research Dominion Voting Systems. The information became rather scary as everywhere I looked I found Eric's name. Some listing him as VP of Security and others calling him Director of Strategy and Security. I began my search for everything Eric Coomer, Dr. Eric Coomer and any information related to legal filings, RFPs, states using Dominion, Colorado uses and even areas in Colorado that do not use Dominion.

I then turned my attention to Eric Coomer's Facebook profile and page while I gathered information on correlating email addresses, profiles, screen names, etc. Searching Twitter, Reddit, Facebook, 4Chan, etc etc.

I was able to get screenshots of Eric Coomer's Facebook posts going back to 2016. What I discovered was disturbing. Anti-Trump rhetoric, posts referring to: Fuck USA, Fuck the Police, A.C.A.B., posts that were anti Conservative, and even posts being happy someone died. Then the bigger shocker. He reposted the Antifa "Manifesto" letter to Donald Trump. I knew that I had the right guy and someone that was clearly mentally unstable and radical. I started digging into the

code irregularities and tying all of the pieces together with the irregularities and the Dominion uses in the disputed states. The correlation was astonishing. I then found the information related to justifying voting machines being online and his justification that they had "hardware and IP address protection". This statement by itself is FALSE.

I then attempted to reach out to all sources to bring this information to light. Calling major news stations and attempting to connect with the DOJ.

I took the information to the listeners of an organization that I also own called Conservative Daily. We have a podcast that we do on weekdays. I felt I had enough information and was confident that the Eric on the conference call was the same Eric Coomer that worked for Dominion. I was also confident that given the Facebook and other information I was able to collect that Eric Coomer was interfering with the election and as he admits in one of his posts that people at his company think and feel the same way he does. I began to research his patents, who owns them, the pattern of states they acquired as clients.

I began to research the connection to Diane Feinstein, her husband, campaign manager, Clinton Foundation and became worried that the finger of radicals had taken away the voice of the American people in deciding the election. I used ARIMA analysis to show me trends on data and probability models to prove that they were in fact using code and technology to ghost votes, switch votes or even remove probable ballots completely. Code is random unless it is not. Since we are a data company and understand artificial intelligence and use of neural networks, we understand the capabilities of creating chaos in outcome based on weighted density of probable voters.

These statements are true and accurate to the best of my knowledge.
